Comments from Principals:

"Completer Name" is phenomenal.

"Completer Name" has been a fantastic addition to our team this year. She is a strong relationship builder and is eager to learn and get involved at a deeper level at our campus.

Everything was wonderful!!

Closing:

This survey dealt with the level of satisfaction the principals had for the completers. It has a qualifying rating of 3. Each of the principal survey responses rated the EPP overall at the qualifying rate of 3 or higher. The overall mean was a 3.95 increasing from a 3.33 mean score in 2020-2021. Our lowest score

on a component was 3.67, improving from 2.75 in last year's survey. The EPP at DBU looked for a higher mean in this area for this year's survey and that has been the case.

Statement	Mean Score	Not Prepared 1	2	3	Well-Prepared 4
-understands and used the RtI process.	3.67	0%	0%	33.3%	66.67%

A lower score in this component is a trend for the EPP at Dallas Baptist University, and an area of concern both state and nationwide. With the implementation of House Bill 3 and the new Science of Teaching Reading TExES examination, the EPP at Dallas Baptist University anticipates seeing this mean score improve. DBU has hired a new full time reading professor, specially trained in the Science of Teaching Reading. DBU has focused its reading coursework in order to provide students with two new three-hour courses designed to especially prepare candidates in this area: Scaffolding and the Science of Teaching Reading. The class of May 2021 was the first to have had both of those courses in their course sequence. The first cohort of students with both courses entered the classroom in 2021-2022, and the EPP is proud to see that the mean score in this area increased from a 2.75 in 2020-2021 to a 3.67 in 2021-2022.
